Correction set a lively pace, followed closely by Clifford and Dr. Hasbrouck. The two former came into the stretch lapped, with Correction still in the lead. Correction had had enough of it by this time and Griffin took Clifford to the front, with Dr. Hasbrouck, who had moved into second place, vainly striving to overtake him.

WARM EATHER ISDOM.

COME MERCHANTS would have you believe that trade enters a condition of pidity about July 1, and re-September wake it to life and netivity again. But, begging your pardon, that

is not true. There is no season of the year in which people do not buy goods; there is no season in which they do not want them. By the same token, there is no season in which it will not pay to advertise. However, if your neighbor has

this old-fashioned notion, and is too conservative to advertise now, there is all the better chance for you. If you think people are not hunting bargains in warm weather, try it.
